Dear Southern Nevada Child Educator,

The Down Syndrome Organization of Southern Nevada (DSOSN) would like to invite your school to participate in the **Dimes for Down Syndrome** campaign.

The **Dimes for Down Syndrome** is a community service project that teaches students to accept individuals with Down syndrome throughout the community and respect them for their abilities and contributions.

Over a designated two week period of time, your students are asked to bring in dimes, pennies, nickels, quarters and dollars. Funds raised will provide programs and services to children and individuals in Southern Nevada. These include music, dance, yoga, physical and speech therapies as well as life skill seminars, support groups and member activities such as our teen and young adult club and our lending resource library.

The **Dimes for Down Syndrome** project is designed to be easy for schools to implement. We provide you with everything you need to conduct a successful campaign and offer your students and your school rewards for participation. The class that raises the most money in each school will receive either a McDonald's breakfast or lunch party, pizza party or a Dimes for Down t-shirt for each student in the class. Schools that reach certain fundraising levels will be eligible for gift certificates.

You have the option of selecting the designated two-week period of your choice in the fall, spring or summer that is most convenient for your school.

We thank you in advance and hope you will consider **Dimes for Down Syndrome** as your community service project this year and join other schools throughout Clark County in signing up for this fun and worthwhile campaign. Complete the enclosed registration form and send it back to us via mail, fax 702-648-2020 or register your school online at [www.dsosn.org](http://www.dsosn.org). Feel free to call 702-648-1990 if you have additional questions.

Sincerely,

*Deann L. Cline*
