

# **DSOSN VOLUNTEER SIGN-UP SHEET**

## **DSOSN COMPUTER LAB CLASS**

The DSOSN Computer Lab is a new/developing program, and July 20th will be our inaugural class. The purpose of this class is to create a fun-learning environment where our members are given access to the digital space and exposed to the wide world of the internet. Some of the learning activities will include key-functions on laptop computers; introduction to Microsoft Suite (MS Word and PowerPoint); internet browsing; shopping online; sending email (and attaching documents); accessing/playing recreational/educational games, and introducing them to some social media protocols, etc. We are asking for six volunteers per class, which will be held on Thursdays, from 4:00 to 5:30 pm. For information about the Computer Lab class, please call Kelly at (702) 648-1990 or (702) 443-5927.
